To the Neighbours of 10 – 36 Crocodile Private:

Re: Forthcoming *Planning Act* Applications
10 – 36 Crocodile Private, Ottawa, ON

Dear Neighbour,

I am writing on behalf of Pegasus Development Corporation, owner of 10 – 36 Crocodile Private, in relation to forthcoming *Planning Act* applications being submitted to the City of Ottawa. I have been retained by Pegasus Development Corporation to serve as their planner and agent for the purposes of the applications.

Proposal

My client is proposing to redevelop the subject lands with a mix of thirty (30) three-storey single-detached homes, which will front onto a crescent-shaped private roadway, Crocodile Private, which is accessed via two entrances off the west side of Scissons Road. The current development proposal is depicted on a Site Plan prepared by M. David Blakely Architect Inc., which is appended to this letter for your information.

The proposed homes are three-storey single detached dwellings with square footages of approximately 1042 square feet. Fourteen of the homes will front directly onto the private roadway, and the remaining sixteen will be accessed by way of two short extensions to the private roadway.

The development proposal is consistent with and conforms to key Provincial and local planning policies relating to intensification, the provision of a range and mix of housing types, and the establishment of compact and transit-supportive development.

Applications

It is anticipated that the following *Planning Act* applications will be pursued by Pegasus Development Corporation:

- Zoning By-law Amendment
- Plan of Condominium
- Site Plan Control
- Part Lot Control

We expect to apply for the Zoning By-law Amendment and Site Plan Control applications imminently.

The proposed development and *Planning Act* applications were formally discussed with City of Ottawa Staff during Pre-Consultation in May 2024 and we continue to engage staff concerning technical aspects of the submission requirements.

Formal Public Notification and Next Steps

Following their receipt and processing of the above applications, the City of Ottawa Planning, Real Estate & Economic Development Department will issue required notifications of the applications and will identify applicable formal/statutory comment and consultation mechanisms.

The purpose of this letter is to bring my client's plans to your attention in advance of the City's circulations.

Please do not hesitate to reach out with any questions or comments. I can be reached at 902-333-2335 or **benjamin.clare@gemtec.ca**.

Sincerely,

Benjamin Clare, MCIP RPP
